

Clinical Supports, Services, & Treatment for Children and Adults

Alternate Name:

Category: [Medical](#), [Mental & Behavioral Health](#)

Organization:

Description: Provides services on a sliding scale fee basis. Services include: Psychological Assessment, Psychosocial Evaluation, Sexuality Assessment, and Additional Assessments, to assess and assist in determining needs for individuals with developmental disabilities. Additional clinical services include: Psychotherapy/Counseling, Crisis Intervention Services, Recovery Supports and Wellness Services, OT, PT, & Speech Services, Nutritional Counseling, and Family Reimbursement. Clinical Services are available to people with developmental disabilities, ages 5 and up. Additionally, certain support services can be provided to other family members who do not themselves have a disability. Clinics are in Manhattan (Financial District) and the Bronx (Fordham Heights) and open by appointment only; please no walk-ins.
